CarFit[®] Check Up

Helping Mature Drivers Find Their Safest Fit

CarFit[®] is an educational program developed by the Automobile Association of America, AARP and the American Occupational Therapy Association. The program offers older adults the opportunity to check how well their personal vehicles "fit" them. A trained volunteer technician will lead drivers through a 15-minute, 12-point vehicle checklist, recommending vehicle adjustments and adaptations for a safer "fit." Appointments required.
