

City of Irvine Adult Softball League Bat Restrictions

While the City Of Irvine softball league abides by ASA bat standards, all bats in our league must be of single wall aluminum, non-composite barrel construction. For an extensive list of bats, please visit the following link <https://www.teamusa.org/USA-Softball/Play-USA-Softball/Certified-USA-Softball-Equipment> Look for the color-coded description at the top of the list for “single wall aluminum” specifics. For additional questions, please contact Frank Baklarz at fbaklarz@cityofirvine.org or at 949-724-6659.
