Effective: 10-01-90

Approved: 

## WET SIGNATURE REQUIREMENTS ON PLANS

The policy regarding Wet Signature Requirements on Plans is hereby adjusted as follows:

Licensed contractors or Interior Designers who provide a qualified stamp issued by an agency authorized and recognized by the City Building Official and by Senate Bill 153 which was signed by the State Governor on July 2, 1990. Signatures may be accepted for nonbearing partitions and ceiling systems which do not carry any additional imposed loads. This provision will be allowed only with the condition that detail drawings are provided for construction of such building elements.

This provision applies to **LICENSED CONTRACTORS AND CERTIFIED INTERIOR DESIGNERS ONLY**. All other plans other than nonstructural elements identified on the existing information bulletin will apply, with regard to required signatures for structural elements.
