# Discovering Irvine through GIS

## GISday 2017

The City of Irvine will host its annual GIS Day on Nov. 14. GIS Day provides a forum for users of geographic information systems (GIS) technology to demonstrate real-world applications that are making a positive difference in our society.

Stop by and learn how GIS technology helps users to solve problems and make smarter decisions about space utilization, asset management and maintenance, natural hazards, urban planning, crime analysis, emergency management, traffic density studies, and much, much more.

Irvine's GIS Day will feature more than 16 exhibitors and four workshops designed to highlight the most recent trends in GIS technology and uses.

**When:**
Tuesday, Nov. 14
10 a.m.–2 p.m.

**Where:**
Irvine Civic Center
1 Civic Center Plaza, Irvine

For a complete list of GIS Day exhibitors, presenters and workshop topics, visit *gis.cityofirvine.org/irvinegis*

Workshop seating is limited. Please register at *cityofirvine.org/gisdayworkshop*
