Gary Brewer: The Shape of Time — A Ten Year Survey

Form in nature speaks directly to us; we respond with a sense of awe and wonder to its beauty and exquisite design. In these structures, we can sense that there is a record of the development of life on Earth – from simple to complex. Gary Brewer searches for rich, complex forms that are fantastic in their intricate detail and design, and with these images he composes paintings that are dynamic and balanced. They are meditations on the mysteries of life and the complex systems that have shaped our world.
