Bubble Wrap Collage

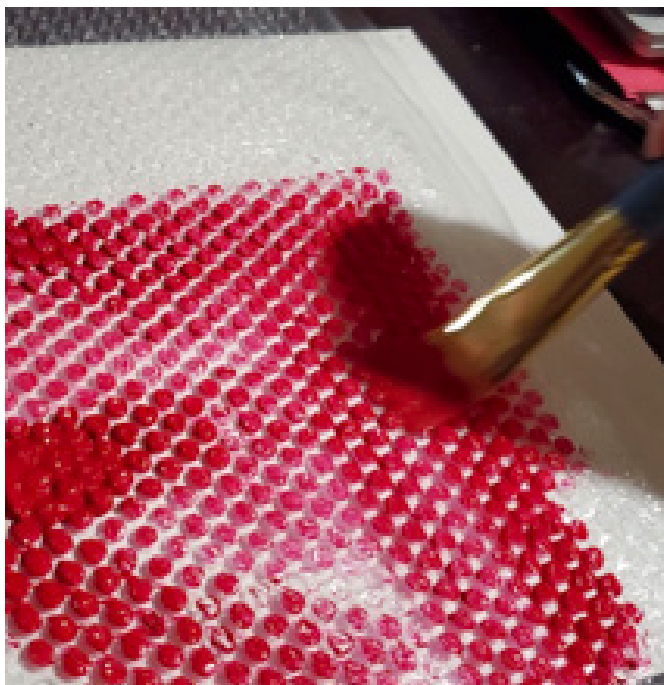

Supplies needed:

- White construction paper
- Bubble wrap
- Acrylic paint (any color)
- Paintbrush
- Glue bottle or glue stick
- Scissors
- Magazines or newspapers
- Markers

Step 1

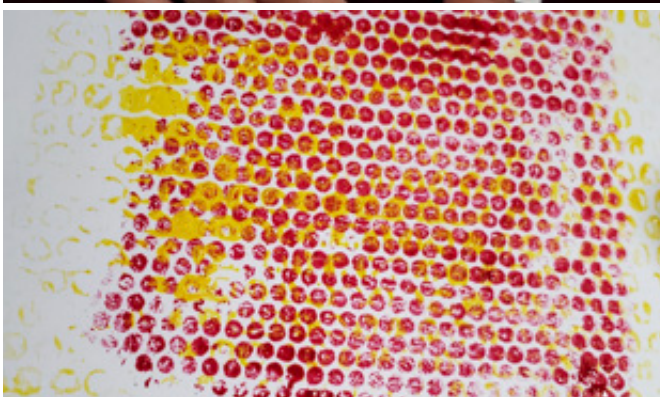

- Using a paint brush, paint over the bubble wrap. Make sure to paint on the side with the bumps and not the flat side.

Step 2

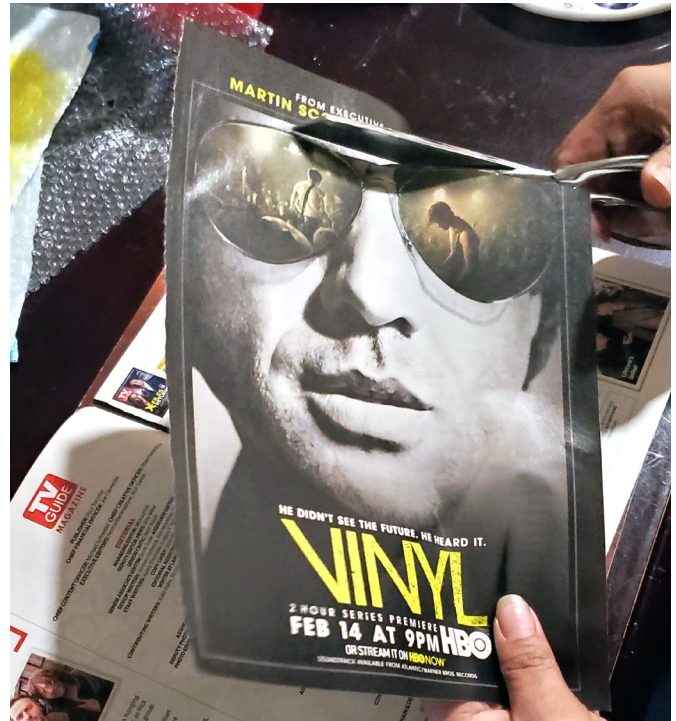

- Place bubble wrap over the white construction paper (paint face down) and lightly rub on the entire sheet using your hand.

Step 3

- Slowly lift off the painted bubble wrap. The texture should have transferred onto the white paper.
- Use the other plastic sheet to repeat steps with a different color.

Step 4

- Set the painting aside to dry.
- While your bubble wrap painting is drying, use scissors to cut out fun pictures and inspiring words to collage onto the project.

Step 5

- Glue on the magazine cut-outs. Make sure the paint is completely dry before gluing on the paper.

Step 6

- Use markers to draw designs around the collage.
