

Virtual Care Options

To Our Valued Patients,

If you have symptoms, please consider one of our virtual urgent care services below. You will quickly be seen and if determined necessary a testing appointment can be scheduled immediately.

▶ **Symptom Checker:** Our symptom checker will help guide you to the right level of care. Click on the chat bubble in the bottom right corner of our website to start your triage session. Compatible with any browser other than Internet Explorer. [Memorialcare.org](https://www.memorialcare.org)

▶ **24/7 Urgent Care On-Demand Video Visit:** Get access to a provider through an on-demand video visit. Use the QR code to schedule your virtual appointment through [myChart](https://mychart.memorialcare.org/mychart//anonymoustelehealth) or visit [mymemorialcare.memorialcare.org/mychart//anonymoustelehealth](https://mychart.memorialcare.org/mychart//anonymoustelehealth).

▶ **24/7 eVisits:** eVisits can diagnose and treat a variety of common conditions such as colds, sinus infections, flu and more. Complete an online health questionnaire and a provider will respond with a treatment plan within one hour. To start, visit [https://memorialcare.zipnosis.com](https://www.memorialcare.org/zipnosis).

Non-Symptom Testing

We ask those who are seeking testing to be cleared for personal reasons such as travel or returning to work or school, to use community testing resources that are available to you. Free, confidential testing is available to every Californian - but we would strongly encourage appointments be made.
