South Yale Corridor Improvements Project

Public Workshop #2
March 8, 2023
Virtual Meeting Guidelines

- Meeting Ground Rules.
  - All perspectives are welcome.
  - Be respectful of other opinions.
- This meeting is being recorded.
Project Overview

- South Yale, between 405 freeway and University Drive.
- Identify and evaluate roadway concepts that address user needs.
- Project identified in City’s 2020 Strategic Active Transportation Plan.
Existing Conditions

- Two 24’ motor vehicle lanes.
- Two 8’ bike lanes.
- Traffic signal at University, 2-way stop at Royce, and 4-way stop at Michelson.
City Objectives

- Protect the environment.
  - Develop actions to carbon neutrality.
  - Reduce vehicle miles traveled.
  - Reduce Greenhouse Gas (GHG) emissions.
  - Provide sustainable alternatives.
- Improve the quality of life.
- Support cleaner, healthier ways for people to move through the City.
Project Objectives

- Size roadway for current traffic and mobility needs.
- Improve roadway safety.
- Enhance mobility for all roadway users.
- Improve connectivity to local and regional destinations.
Community Input - Fall 2022

- City Promotion - website, Community Link newsletter, social media, citywide survey.
- Stakeholder meeting.
- Rancho San Joaquin Middle School: PTA newsletter, PTA executive board meeting, ASB student workshop.
- Five community association meetings.
- One community workshop.
- Feedback was consolidated into key themes and valuable input.

Thank you for your input!
Community Input - Fall 2022

Prominent feedback from the outreach discussed the following priorities:

- Additional crossing at Royce Road.
- Enhanced bicycle/pedestrian separation from moving cars.
- Slower vehicle speeds and more traffic calming measures.
- Improved crossings at existing intersections.
- Improving school drop-off and pick-up traffic circulation and on-street parking needs.
Bicycle Facility Feedback - Fall 2022

Which bikeways would you like to see on the Project Corridor?

Input on Corridor Alternatives

- Community priorities and other feedback identified in Fall 2022 outreach has been incorporated into 4 corridor alternatives.
- Phase 2 of project outreach will seek input on the developed alternatives through a citywide survey.
Existing Cross-Section
Cross-Section Alternative 1

- Provides a comfortable two-way cycletrack for bicyclists.
- Provides physical separation between vehicles and bicyclists.
- Provides separate facilities for pedestrians and bicyclists.
- Accommodates parking for school events and drop-off and pick-up.
Cross-Section Alternative 2

- Provides a comfortable two-way cycletrack for bicyclists and additional on street buffered bike lanes.
- Offers a range of separation between vehicles and bicyclists.
- Provides separate facilities for pedestrians and bicyclists.
- Accommodates parking for school events and drop-off and pick-up.
Cross-Section Alternative 3

- Provides comfortable one-way cycletracks for bicyclists.
- Provides physical separation between vehicles and bicyclists.
- Provides separate facilities for pedestrians and bicyclists.
- Accommodates parking for school events and drop-off and pick-up.
Cross-Section Alternative 4

- Provides buffered bike lanes for increased separation for bicyclists.
- Provides separate facilities for pedestrians and bicyclists.
- Provides a large center median.
- Provides additional landscaping.

**ALTERNATIVE 4: BUFFERED BIKE LANE AND WIDENED SHARED USE PATH**
We ask you to provide your input via our project survey.

bit.ly/SouthYale2

We look forward to hearing your input!

Survey closes April 7.
Project Schedule

March 8th - April 7th
Project Survey

Spring: Select Single Alternative

Summer: Prepare Project Report
Question & Answer

Thank you for your Participation!
