

IRVINE

CLIMATE ACTION AND ADAPTATION PLAN

Join Irvine in creating a truly
climate-smart City for the future.

The Climate Action and Adaptation Plan (CAAP) is a quantifiable plan of action we can use to measure, track, and reduce greenhouse gas emissions and climate-related risks through a framework of initiatives most impactful to our City.

Join the City in this transformative journey:

Learn about the goals of Irvine's CAAP at a virtual workshop.

November 30, 5:30–6:30 p.m.
Registration is required.

Sign up at cityofirvine.org/climate.

Provide your input on potential CAAP actions in our online survey.

Take the survey through
December 8 at

cityofirvine.org/climate.

Request a City presentation on how your business or community group can take an active role in the CAAP.

Email environmentalprograms@cityofirvine.org.

Through the CAAP, we can improve the air we breathe, create a healthier and more resilient community, and enhance our overall quality of life in Irvine.

Visit cityofirvine.org/climate to learn more.
