

WING CHOW

Retired CPA

My family have lived in Irvine since 1985 and it is time for me to give back to the community.

My daughter and son graduated from University H. S. and Irvine H. S, respectively. My daughter was ASB President in High School while my son was ASB President in Elementary School. The trail of leadership runs high in my family.

My education includes a diploma in communication, a bachelor's degree and a master's degree in accounting and finally my CPA certificate.

During my career, I was the Audit Director and Corporate Controller for several major real estate development companies and the CFO for a savings bank during conservatorship by FDIC.

My goal is to make Irvine a safe, happy, and prosperous city. I will emphasize caring for the old and education for the young. Also, I will create new opportunities for business to make Irvine a prosperous city.
