

CITY OF IRVINE BOUNCE HOUSE VENDOR REQUIREMENTS

Size, Quantity, & Type

- Permit holder will be advised of the allowable size at the community center/park or neighborhood park by City staff.
- At neighborhood parks, only one bounce house allowed per location, no bigger than 20' x 20' unless otherwise approved by City staff in writing on the permit.
- Should a vendor provide three or more bounce houses at an approved location, insurance limit requirements may be increased. Vendor and permit holder must receive City staff approval.
- **NOT ALLOWED:** Bounce houses with water features, dunk tanks, and water slides.

Loading/Unloading

- The bounce house may not be setup prior to the arrival time on the permit and it must be removed prior to the departure time on the permit.
- Vendor must park in designated parking lot and dolly in the equipment.
- Driving is NOT permitted on any community center/parks or neighborhood parks unless otherwise approved by site staff in writing on the permit.
- Vendor must have automobile liability insurance and receive prior approval from the City staff as an approved/authorized vendor to drive onsite with staff escort.

Placement & Equipment

- Vendors must follow City approved locations of bounce house placements and safety measures.
- Vendor must provide a generator. City electrical outlets may not be used.

Securing of Bounce House

- If securing in grass area, stakes to secure bounce houses must be at least 18 inches away from sidewalks to avoid irrigation lines or otherwise directed by City staff.
- If securing on hardscape, proper weights and securing of weights must be followed as directed by City staff.
