RECOMMENDED ACTION

Review and provide input on proposed updates to policies, procedures, fees, and bylaws related to the use and allocation of City athletic facilities:

- 1) Athletic Facility Reservation Policy
- 2) Outdoor Athletic Facilities Reservation Fees
- 3) Allocation Procedures for Outdoor Sports Facilities
- 4) Irvine Sports Advisory Committee Bylaws

EXECUTIVE SUMMARY

The Community & Library Services Department is proposing updates to the Athletic Facility Reservation Policy, Athletic Facilities Reservation Fees, Allocation Procedures for Sports Facilities, and the Bylaws of the Irvine Sports Advisory Committee. Because these documents are interconnected, proposed changes have been incorporated across all related documents to ensure consistency in the administration of City athletic facilities.

A key proposed update is transitioning from the current per-person, per-season fee structure for outdoor facilities to an hourly reservation model. This approach aligns Irvine with regional standards, improves transparency, and better reflects actual facility usage.

Updates to the Irvine Sports Advisory Committee Bylaws are proposed to reflect minor administrative revisions.

ANALYSIS

The Irvine Sports Advisory Committee (Committee) serves as an advisory body reporting to the Community & Library Services Commission (Commission) providing input on the needs of the Irvine youth sports community. The Committee annually reviews the Athletic Facility Reservation Policy (Policy), Athletic Facilities Reservation Fees (Fees), Allocation Procedures for Sports Facilities (Allocation), as well as the Bylaws of the Irvine Sports Advisory Committee of the City of Irvine (Bylaws), to support fairness and equality amongst its user groups. Updates to the Fees and Allocation are presented to the Committee for review, discussion, and input.

Several of the proposed policy and procedural updates require corresponding revisions across multiple related documents to ensure consistency in the administration of athletic facilities. Because the Policy, Fees, Allocation, and Bylaws are interconnected, certain proposed changes—such as allocation methodologies and fee structures—must be reflected across each of these documents. Therefore, staff incorporated coordinated updates throughout the attachments to maintain alignment between policies, procedures, and fee schedules. These revisions are intended to ensure the City’s athletic facility framework operates cohesively so user groups receive clear and consistent guidance regarding reservations, allocations, and facility use requirements.

Proposed Updates to the Athletic Facility Reservation Policies

The Athletic Facility Reservation Policy (Attachment 1) is proposed to be updated and reformatted to align with the structure and standards used in the City’s Community Facility Reservation Policy. These updates are intended to improve clarity, consistency, and administrative efficiency across all City facility reservation processes.

The proposed revisions broaden facility definitions, refine tournament classifications, and establish a clearer priority hierarchy that favors athletic-related uses of sports facilities over non-athletic activities. Administrative procedures are also proposed to be clarified, including requirements for written cancellation and change requests, to ensure consistency with existing City refund and reservation management practices.

The proposed policy updates also incorporate the Irvine Fieldhouse into the City’s athletic facility inventory and establish the administrative framework necessary for managing reservations and allocations within the new indoor facility.

Proposed Transition to an Hourly Fee Model

The City currently charges Irvine Sports Advisory Committee member organizations a per-person, per-season fee for outdoor field and court use. However, other City facilities, including community facilities, aquatic centers, and Great Park venues, utilize an hourly reservation model.

To improve consistency across City facilities and better align fees with actual facility usage, staff are proposing a transition to an hourly fee structure for outdoor athletic field and court reservations. The proposed Athletic Facilities Reservation Fees (Attachment 2), provides an hourly model with greater transparency for user groups, simplifies administrative processes, and ensures that facility fees more accurately reflect the amount of time reserved.

Staff conducted a review of athletic facility pricing across Orange County jurisdictions (Attachment 3). This analysis indicates that hourly pricing is the prevailing regional standard for athletic facilities, with neighboring agencies averaging approximately \$24 per hour for nonprofit organizations, often with additional surcharges for lighting or field preparation.

To maintain affordability while ensuring fiscal sustainability, the proposed fee structure introduces modest hourly rates. The proposed outdoor facility rates are as follows:

- Outdoor Courts: \$4 - \$10 per hour per court
- Recreation Organizations: \$6 per hour per field
- Club Organizations 85% or above \$10 per hour per field
- Club Organizations below 85% \$15 per hour per field

This proposed structure maintains the City's commitment to supporting youth sports programming while aligning Irvine's pricing model with regional standards, and prioritizing Irvine residents.

The proposed fee update also includes removing one free tournament per year for recreation programs. Instead, recreation programs would be entitled one tournament per year at the proposed recreation hourly rate of \$6. All additional tournaments will be charged at the regular tournament rate.

Non-resident and Tournament Fees

Staff conducted a review of non-resident fees for outdoor facilities to ensure non-resident users are paying comparatively moderate rates based on market rates. Based on this review, a 10 percent increase to non-resident hourly rental rates is being proposed. This same approach is recommended for Tournament Categories A–C, as these events require a higher level of resources and operational support than typical field or court use.

Across Orange County, the average non-resident rate ranges from approximately \$37 to \$43 per hour for nonprofit organizations and around \$96 per hour for commercial entities. Tournament pricing in the region is generally based on an hourly model, although some municipalities utilize daily rates. The proposed fee structure is inclusive of costs such as lighting and maintenance, which are often charged separately in other jurisdictions.

Proposed Updates to Residency Requirements and Allocation Methodology

Ensuring Irvine residents continue to receive priority access to City athletic facilities is a key objective of the proposed updates. Irvine has experienced consistent population growth averaging approximately three percent annually, with additional residential development anticipated in the coming years.

Participation among organizations represented on the Committee has also grown significantly. Youth participants within Committee organizations using athletic fields increased by approximately 24 percent between 2022 and 2025, while the total number of City athletic fields remained unchanged at 87. Although staff have increased annual allocation hours by approximately six percent during that time, demand for field space continues to exceed available capacity.

Recreation-based programs are designed to provide inclusive participation opportunities for youth regardless of skill level. While skill evaluations may be used to balance teams, these programs generally accept all participants and include rules that ensure minimum playing time for players. Recreation programs typically emphasize participation and community-based play, although some may travel to other cities for competition when a sport has limited local participation. In contrast, competitive, club, and travel programs focus on higher levels of competition and typically require participant tryouts for team selection. These programs often travel to compete against teams from other cities and do not guarantee minimum playing time for participants. As a result, recreation programs primarily focus on broad community participation, while club programs are structured around advanced skill development and competitive play.

To better prioritize Irvine residents and allocate facility space more accurately, staff are proposing Committee facility allocations would be calculated based on the percentage of Irvine residents participating within each organization rather than total participant counts. This methodology ensures that the amount of facility time allocated more closely reflects the number of Irvine residents served by each program.

In addition, the proposed changes include increasing the minimum residency requirement for Category A resident organizations from 57 percent to 70 percent Irvine residency.

These proposals are intended to prioritize local access while maintaining opportunities for regional athletic organizations that serve Irvine residents.

Proposed Updates to Allocation Procedures for Outdoor Sports Facilities

Staff are proposing several updates to the Allocation Procedures for Sports Facilities (Attachment 4) to improve administrative efficiency and provide greater scheduling stability for youth sports organizations.

The proposed updates include consolidating the allocation cycle into two primary seasons rather than multiple application periods throughout the year. This change is intended to reduce administrative burden for both staff and organizations while providing groups with more predictable long-term scheduling.

Staff are also proposing removal of the existing two-team maximum limit for club organizations. Eliminating this limit would allow established organizations to expand participation opportunities in response to the growing demand for youth sports programming in Irvine.

To support the responsible introduction of new organizations into the allocation process, staff are proposing increasing the probationary period from 12 months to a 24-month period for new groups before they become eligible for primary allocation status. The probationary period would begin at the start of the allocation cycle following the October meeting of the Committee and would extend for two full years.

Additional procedural updates are proposed to clarify storage policies for organization equipment, tournament classifications, and enforcement procedures related to policy violations. These revisions are intended to provide clearer expectations for organizations and improve consistency in administration.

Irvine Sports Advisory Committee Bylaws

Minor updates to the Bylaws of the Committee (Attachment 5) are also proposed to reflect the current meeting location, update attendance requirements and remove entry and application deadlines to align with submittal deadlines.

ALTERNATIVES CONSIDERED

The Committee may propose alternative recommendations for updates to the changes to policies, fees, procedures, and bylaws related to the use and allocation of City athletic facilities.

FINANCIAL IMPACT

If implemented, the proposed transition to an hourly reservation fee model for outdoor athletic facilities is projected to generate approximately \$150,000 in additional annual revenue to the General Fund.

If implemented, the proposed increase of ten percent for non-resident hourly fees and category A-C tournament fees is projected to generate approximately \$35,000 in additional annual revenue to the General Fund.

The percentage of facility space provided to each organization is based off the number of Irvine residents an organization has within the allocation, not their total number of participants.

NOTICE OF APPEAL

Organizations may appeal or challenge the procedure used for allocating sports facilities by submitting a “Formal Letter of Appeal” no later than 14 days following the scheduled allocation meeting. Community & Library Services will forward notice of the appeal to all organizations in the allocation process. The Community Services Department and the Sports Advisory Committee Chair will attempt to resolve the appeal within five working days.

If resolution is not reached with the organization filing the appeal, the appeal must be placed on an agenda for a special meeting of the Sports Advisory Committee. All organizations must be notified of the appeal including the date and place of the meeting where the appeal will be heard. If the organization filing the appeal is not represented at the meeting, the organization shall forfeit all rights to further consideration by the Sports Advisory Committee. All appeals to the Sports Advisory Committee shall be heard by secondary groups for the season in question. Primary Organizations shall abstain from voting on the appeal.

ROSTER CHALLENGES

If an organization challenges the accuracy of another organization's participant information (e.g. participant numbers, team rosters or accuracy of residency), the Sports Advisory Committee shall appoint a task force of representatives from secondary organizations. The Task Force will evaluate the list of participants in a manner directed by the Sports Advisory Committee and has authority to request additional information.

Requests for additional information may include, but is not limited to, the following:

- Revised rosters for the entire organization or for a specific team in question.

If the Sports Advisory Committee determines an organization has falsified documents or submitted rosters containing errors overstating the level of participation and/or understating the number of non-Irvine residents, the Sports Advisory Committee shall invite the offending organization to show why it should not be penalized in accord with recommendations of the task force. Upon consideration and vote of the Sports Advisory Committee, recommendations for penalties shall be forwarded to the City for implementation.

ALLOCATION FEE COLLECTION

Allocation fees are charged to Groups in accordance with the Athletic Facilities Reservation Fees approved by Irvine City Council. All participating Groups are required to provide organization or team rosters per the requirements of the Allocation Procedures for Sports Facilities.

Organizations will be charged for allocation of facilities for regular team practices and games based on the ongoing reservations payment schedule. Facility use outside of this must go through the standard rental processes and be charged at regular rental rates.

Club organizations are charged a \$100 team deposit per team each allocation season. Team deposits are applied to any allocation invoices within a season. Deposits are forfeited if team(s) drop during an allocation season or team(s) do not meet the minimum residency requirements. Additional club teams may not be added after the document deadlines.

All rosters must be submitted in Excel format with the required information (noted in Organization Requirements). If such conduct thereafter continues so as to disrupt the orderly conduct of the public's business, the Chair shall order the person removed from the Committee's meeting location. Aggravated cases may be prosecuted on appropriate complaint signed by the Chair, a member of the Committee or any other authorized City representative. The members of Committee may, pursuant to Government Code section 54957.9, order the meeting room cleared and continue with the session when the orderly conduct of the meeting becomes unfeasible and order cannot be restored.

RECOMMENDED ACTION

Review and provide input on proposed Irvine Fieldhouse Fee Policy and Allocation Procedures.

EXECUTIVE SUMMARY

The Community & Library Services Department is proposing the establishment of the Irvine Fieldhouse Fee Policy (Attachment 1) and the Irvine Fieldhouse Allocation Procedure (Attachment 2).

As the City's first municipally owned indoor athletic facility, anticipated to open in spring 2027, the Fieldhouse requires dedicated administrative policies and procedures. To ensure the facility operates under a sustainable cost recovery model, staff is proposing an hourly reservation structure, aligning with regional standards for indoor athletic venues and providing clear methodology for facility usage.

Allocation procedures have been developed to streamline the reservation process for youth sports organizations through a quarterly cycle, designed to accommodate the unique seasonal requirements of indoor sports. These procedures ensure the Fieldhouse is fully integrated into the City's athletic inventory with a clear and consistent operational structure.

ANALYSIS

The Irvine Sports Advisory Committee (Committee) serves as an advisory body reporting to the Community & Library Services Commission (Commission), providing input on the needs of the Irvine youth sports community. In preparation for the opening of the City's first gymnasium, staff is proposing the establishment of Irvine Fieldhouse Reservation Fee Policy (Fees) and the Irvine Fieldhouse Allocation Procedures (Allocation Procedures) for the Irvine Fieldhouse. The proposed Policy and Allocation are designed to support fairness and equality amongst indoor user groups, regardless of choice of sport, and are being presented to the Committee for review, discussion, and input to ensure the facility meets the community's needs.

The establishment of Fees and Allocation Procedures requires a coordinated framework across multiple documents to ensure consistency in the administration of the new facility. Because the Fees, Allocation Procedures, and Bylaws are interconnected, the foundational structures for the Fieldhouse, including the inaugural Fees and indoor-specific Allocation Procedure methodologies, are reflected across each of these documents. Staff have developed these integrated attachments to maintain strict alignment between the facility's operating procedures and fee schedules. These inaugural measures are intended to ensure the Irvine Fieldhouse operates cohesively within the City's broader athletic facility portfolio, providing user groups with clear and consistent guidance regarding reservations, allocations, and indoor facility use requirements upon opening.

Irvine Fieldhouse Overview

The Irvine Fieldhouse will become the City's first municipally owned indoor athletic facility. On August 13, 2024, the City Council approved a Purchase and Sale Agreement with Lincoln Property Company to convert a yet to be built warehouse located at 17300 Redhill Avenue into a city-owned indoor athletic facility.

The 7.3-acre property is located within the Irvine Business Complex. Lincoln Property Company is responsible for completing the base building and conveying the project to the City in summer 2026. Following the transfer of the building, the City will commence tenant improvements with an anticipated completion in early 2027.

Once completed, the Irvine Fieldhouse will encompass approximately 110,000 square feet of building area, including roughly 90,000 square feet of indoor court space, including 10 dedicated badminton courts and 10 multi-use courts, a multi-purpose room, food service and restaurant area, storage areas, staff offices, and a public lobby space. The facility is proposed to provide year-round indoor sports programming, recreational activities, and community events.

City staff have conducted multiple outreach meetings with the local athletic community and have provided updates to the Committee throughout 2025. These discussions have helped shape the proposed scheduling priorities, programming opportunities, and facility operations for the Fieldhouse.

Proposed Irvine Fieldhouse Fee Structure

To establish a sustainable financial foundation for the Irvine Fieldhouse, staff conducted a market analysis (Attachment 3) of indoor athletic facility pricing within Orange County. The study evaluated a range of comparable venues, including municipal gymnasiums, school district facilities, and private sports complexes. This data was utilized to ensure the Fieldhouse's inaugural Fee structure aligns with regional standards while meeting the City's specific operational requirements.

The analysis indicates the proposed Fieldhouse rates are positioned competitively against regional averages across all primary user categories. In comparison to public sector

facilities, the inaugural fees for local non-profits and residents are lower than the mean rates currently set by neighboring municipalities and school districts. This variance is also present in the for-profit and non-resident categories, where the proposed Fees reflect a competitive cost-point relative to the broader regional market.

Evaluation of private indoor sports facilities provides further context for this inaugural pricing strategy. For multi-use basketball and volleyball courts, Fees are set comparably to the average hourly rates of private operators. This positioning is intended to encourage high facility utilization, which is a necessary component of the facility's cost recovery model. By establishing fees that are competitive with both public and private alternatives, the City provides a cost-effective indoor venue while generating the revenue required to sustain independent operations and long-term maintenance.

Proposed Irvine Fieldhouse Allocation Procedures

Staff have developed Allocation Procedures for the Irvine Fieldhouse, utilizing a framework consistent with existing City athletic facility methodologies. The Allocation Procedures are designed to manage high-demand indoor court space while ensuring equitable access for a variety of user groups.

The inaugural Allocation Procedures establishes daily operational hours from 8 a.m. to 10 p.m., managed through a quarterly allocation cycle. This quarterly structure provides the flexibility necessary to accommodate the varying season lengths of indoor sports while offering user groups a predictable and stable scheduling environment.

Under the allocation model, City-led programming is designated as the highest priority, maintaining a minimum of 20 percent of total court availability at all times. This protected allocation ensures adequate space for municipal drop-in activities, instructional classes, youth and adult leagues, and seasonal camps.

Following the fulfillment of City programming needs, priority access is granted to organizations primarily serving Irvine residents, which is further refined by peak seasonal indoor sports participation on multi-use courts, including girls' volleyball during the fall season, boys' and girls' basketball during the winter season, and boys' volleyball during the spring season. To maintain administrative consistency and reward reliability, returning organizations in good standing will receive priority consideration during each allocation period, while new organizations will be placed on a waitlist should court demand exceed available capacity.

Financial Sustainability and Revenue Projections

The proposed Fees were developed to address the facility's specialized operational requirements, establishing a baseline for fiscal neutrality. Total annual expenditures are budgeted at approximately \$2.4 million, which encompasses both facility maintenance and personnel necessary for site management.

Facility-related expenses include repairs, maintenance, utilities, property insurance, and janitorial services. These costs are calculated based on a per-square-foot methodology to ensure the facility is maintained according to City standards. Personnel expenses are also incorporated into the operational budget to allocate staff for daily facility operational coverage as well as the administration of community programming.

The facility utilizes a diversified revenue model composed of facility reservations and City-led programming. Revenue is generated through multi-use court reservations and dedicated badminton court usage, with reservation revenue projected to account for approximately 80 percent of total income. The remaining 20 percent is expected to be generated through programming activities, such as youth classes, camps, adult leagues, and drop-in sports.

A gradual ramp-up period is anticipated as the Fieldhouse becomes integrated into the City's recreational system. Total revenue is projected to grow from \$1,093,700 in the first fiscal year to \$2,411,500 by the third year of operation. This projected growth is intended to align facility-generated income with total operating expenses by the third year of service, establishing a self-sustaining model for daily operations.

ALTERNATIVES CONSIDERED

The Committee may propose alternative recommendations for the proposed Irvine Fieldhouse Fee Policy and/or the Irvine Fieldhouse Allocation Policy.

FINANCIAL IMPACT

Total revenue in Fiscal Year 2026–27 is projected to be approximately \$1,093,700 with expenditures estimated to be \$1,200,000. In Fiscal Year 2027-28 projected revenue will increase to an estimated \$2,411,500 with expenditures estimated to be \$2,400,000. At full operation, staff estimate the Irvine Fieldhouse to operate at no cost to the General Fund.

INTRODUCTION

Groups must fulfill and meet all organization and team requirements by following the City Allocation Procedure for the IFH. Groups are provided an organization category determined by the Community & Library Services Department once all requirements have been met and approved.

PURPOSE

The IFH Allocation process was created to provide athletic court space to the community for practices and games. Groups that meet allocation and residency requirements are provided seasonal court allocations based on the number of participants for each organization.

The Irvine Fieldhouse athletic facilities are permitted in priority to the following:

1. City of Irvine Programs and Events
2. Category A Resident Recreation Allocations
3. Category A Resident Club Allocations
4. Category A Non-Resident Allocations
5. Tournaments and Events
6. Reservation Categories B and C
